Full-Stack WordPress Developer with over 3 years of hands-on, commercial experience in crafting responsive, user-centric websites and web applications using the WordPress CMS. Adept in both front-end and back-end development, I specialize in translating design visions into seamless, scalable digital solutions. Known for meeting tight deadlines, adhering to design specifications, and solving complex technical challenges with a creative, proactive mindset. Passionate about clean code, performance optimization, and staying up to date with the latest web technologies and best practices. Actively seeking an opportunity where I can contribute technical expertise and continue growing in a collaborative and innovative environment.

Specializations: WordPress Core, taxonomy structure, WordPress Theme Development, WooCommerce Theme Development, Gutenberg Custom Blocks, Advanced Custom Fields (ACF), HTML, CSS, SASS, JavaScript, jQuery, PHP, Bash, SSH, Linux Terminal,Cross-Browser Compatibility, Responsive Design, Web Accessibility (WCAG)

Professional Experience

Relish New Brand Experience, Winnipeg, MB, Canada   November 2022 – Present
Full Stack Wordpress Developer/Web Developer

Building multi page websites with complex logical structure and fully customizable   :

- Developed **custom WordPress themes from scratch** based on client-approved designs, ensuring responsive layouts and cross-browser compatibility.

- Collaborated with account managers, project managers, designers, and fellow developers to deliver **user-friendly, high-performance websites**, adhering to best practices and industry standards.

- Built **custom Gutenberg blocks** to deliver unique functionality tailored to client requirements.

- Created **bespoke WooCommerce themes** aligned with provided UI/UX mockups, optimizing for conversions and performance.

- Maintained and optimized existing WordPress websites by **debugging issues**, performing plugin and theme updates, and **implementing new features** as needed.

- Provided **technical support and troubleshooting assistance** to clients, ensuring smooth ongoing performance of their websites.

- Utilized **Photoshop and Adobe Illustrator** to adapt and optimize design assets for web development purposes.

- Integrated third-party APIs and services (e.g., payment gateways, CRMs, email platforms).

- Configured and managed WordPress hosting environments, including database and server setup.

Tech stack: meta fields, taxonomies, post types, acf fields, Gutenberg Blocks, ACF custom blocks, WordPress/Woocommerce filters and hooks, Wordpress API, SASS , JavaScript, jQuery, PHP,, gutenberg editor customization.
